Committees are to establish norms

In order to create valued outcomes, a commitment to participation, dialogue, and the pursuit of value in the form of useful output by all is necessary. It is acknowledged that there are power dynamics in a room. Work must be done to create the equitable and inclusive environment sought for effective and active participation. To do so, council/committee members will establish behavioral norms that include the following meeting rules of engagement, make use of meeting tools, and respect the roles of each member.

Rules of Engagement

In participatory government, a high level of collegiality, respect, and civility is expected. Those expectations include the following rules:

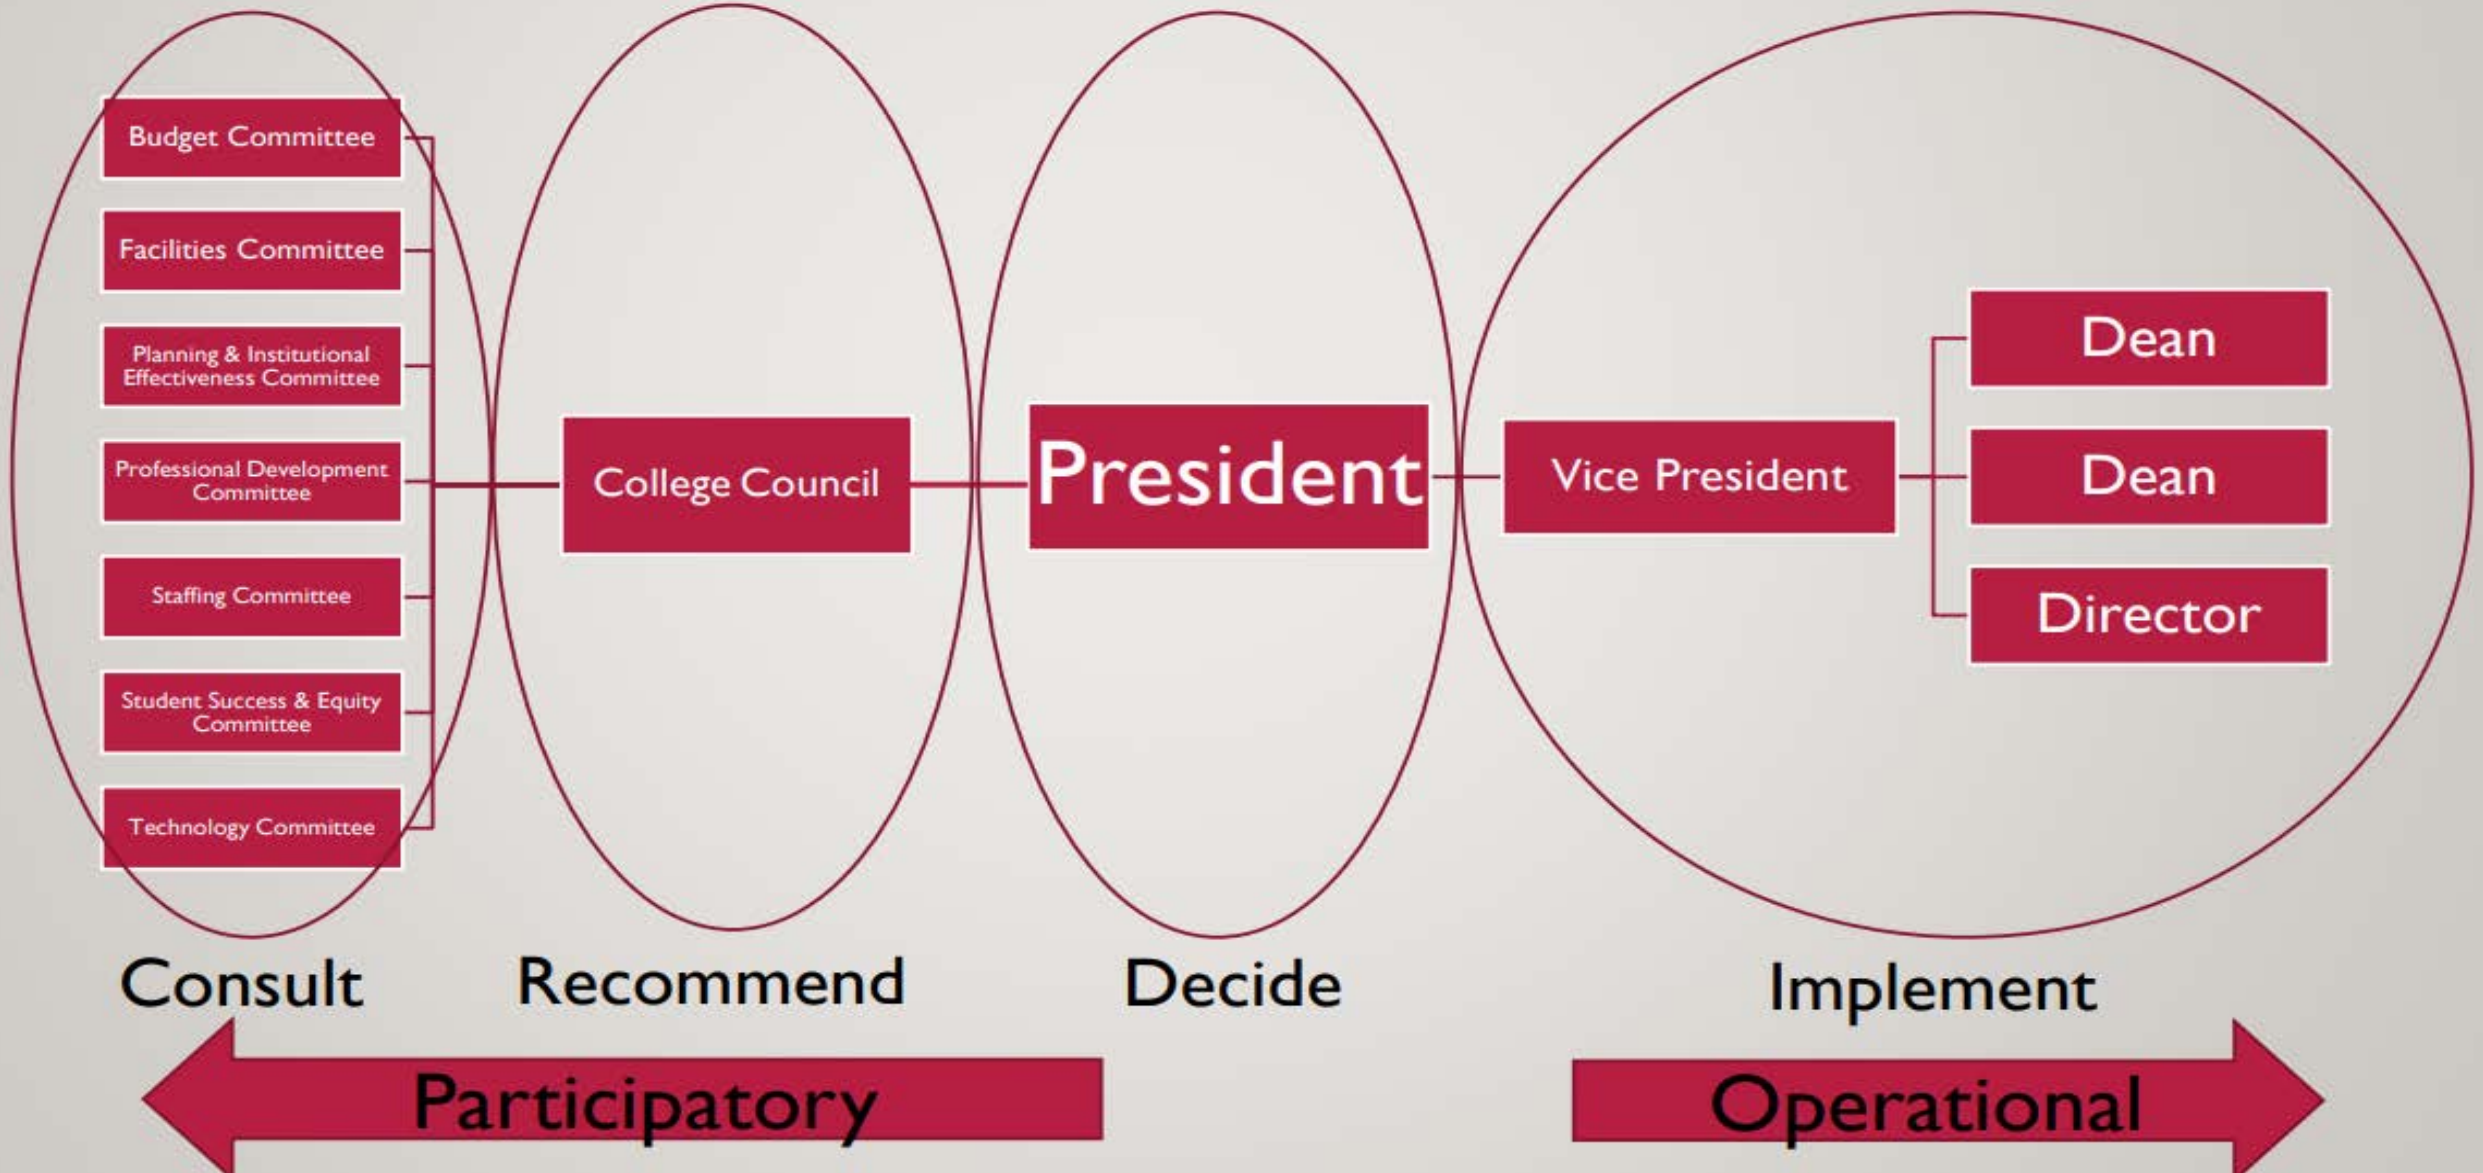

- There is no rank in the room when at the committee table. All participants are treated as peers, both between constituencies and within constituencies.
- Speakers will be heard one at a time and without interruption. Participants will allow for moments of silence for thought and other viewpoints. In consideration of hearing all feedback, members should be mindful of how often and how long they speak. Equity in consensus building means including diverse perspectives at all levels of the organization.
- Members will be engaged and contribute, and challenge ideas, not people. All meeting attendees will be respectful/civil in their comments, responses, and body language.
- Members will listen to others, and seek to focus on the merits of what is being said, while making a good faith effort to understand the concerns of others. Council/committee members are encouraged to ask questions of clarification.
- Each person reserves the right to disagree with any proposal and accepts responsibility for offering alternatives that accommodate individual interests and the interests of others.
- All members should be mindful of the language used in discussions, including use of "I" statements instead of "they" attributions to relate anecdotal evidence or experiences. Members are encouraged to use an asset-minded approach that focuses on what works and how something can be done. This is in contrast to a deficit-minded approach that focuses on the negative and why an initiative, idea, or project can't get done.
- All council/committee members will be aware of the purpose and responsibility of their committees. When issues arise in discussion that are not supported by the committee's charge, the chair will identify the proper council, committee, or constituency group leadership for review, and forward the issue for consideration.
- Once consensus is reached after deliberation, council/committee members will support the group's recommendation.

DATE 2-6-19

Purpose The Facilities Committee identifies, prioritizes and advocates for the facilities needs and services. It makes recommendations to the College Council for the strategic direction and implementation of facilities priorities. These recommendations address facilities policies and procedures, prioritization of facilities requests from annual unit plans*, facility requirements for existing programs, and projected facility needs of the college for the future. The committee will ensure that its recommendations are consistent with the objectives and recommendations established in the Facilities Plan, Strategic Plan, Educational Master Plan, and other supporting plans and reports (five-year capital outlay plan, use of space, scheduled maintenance, state and federal reports, etc.).

CONCESSIONS

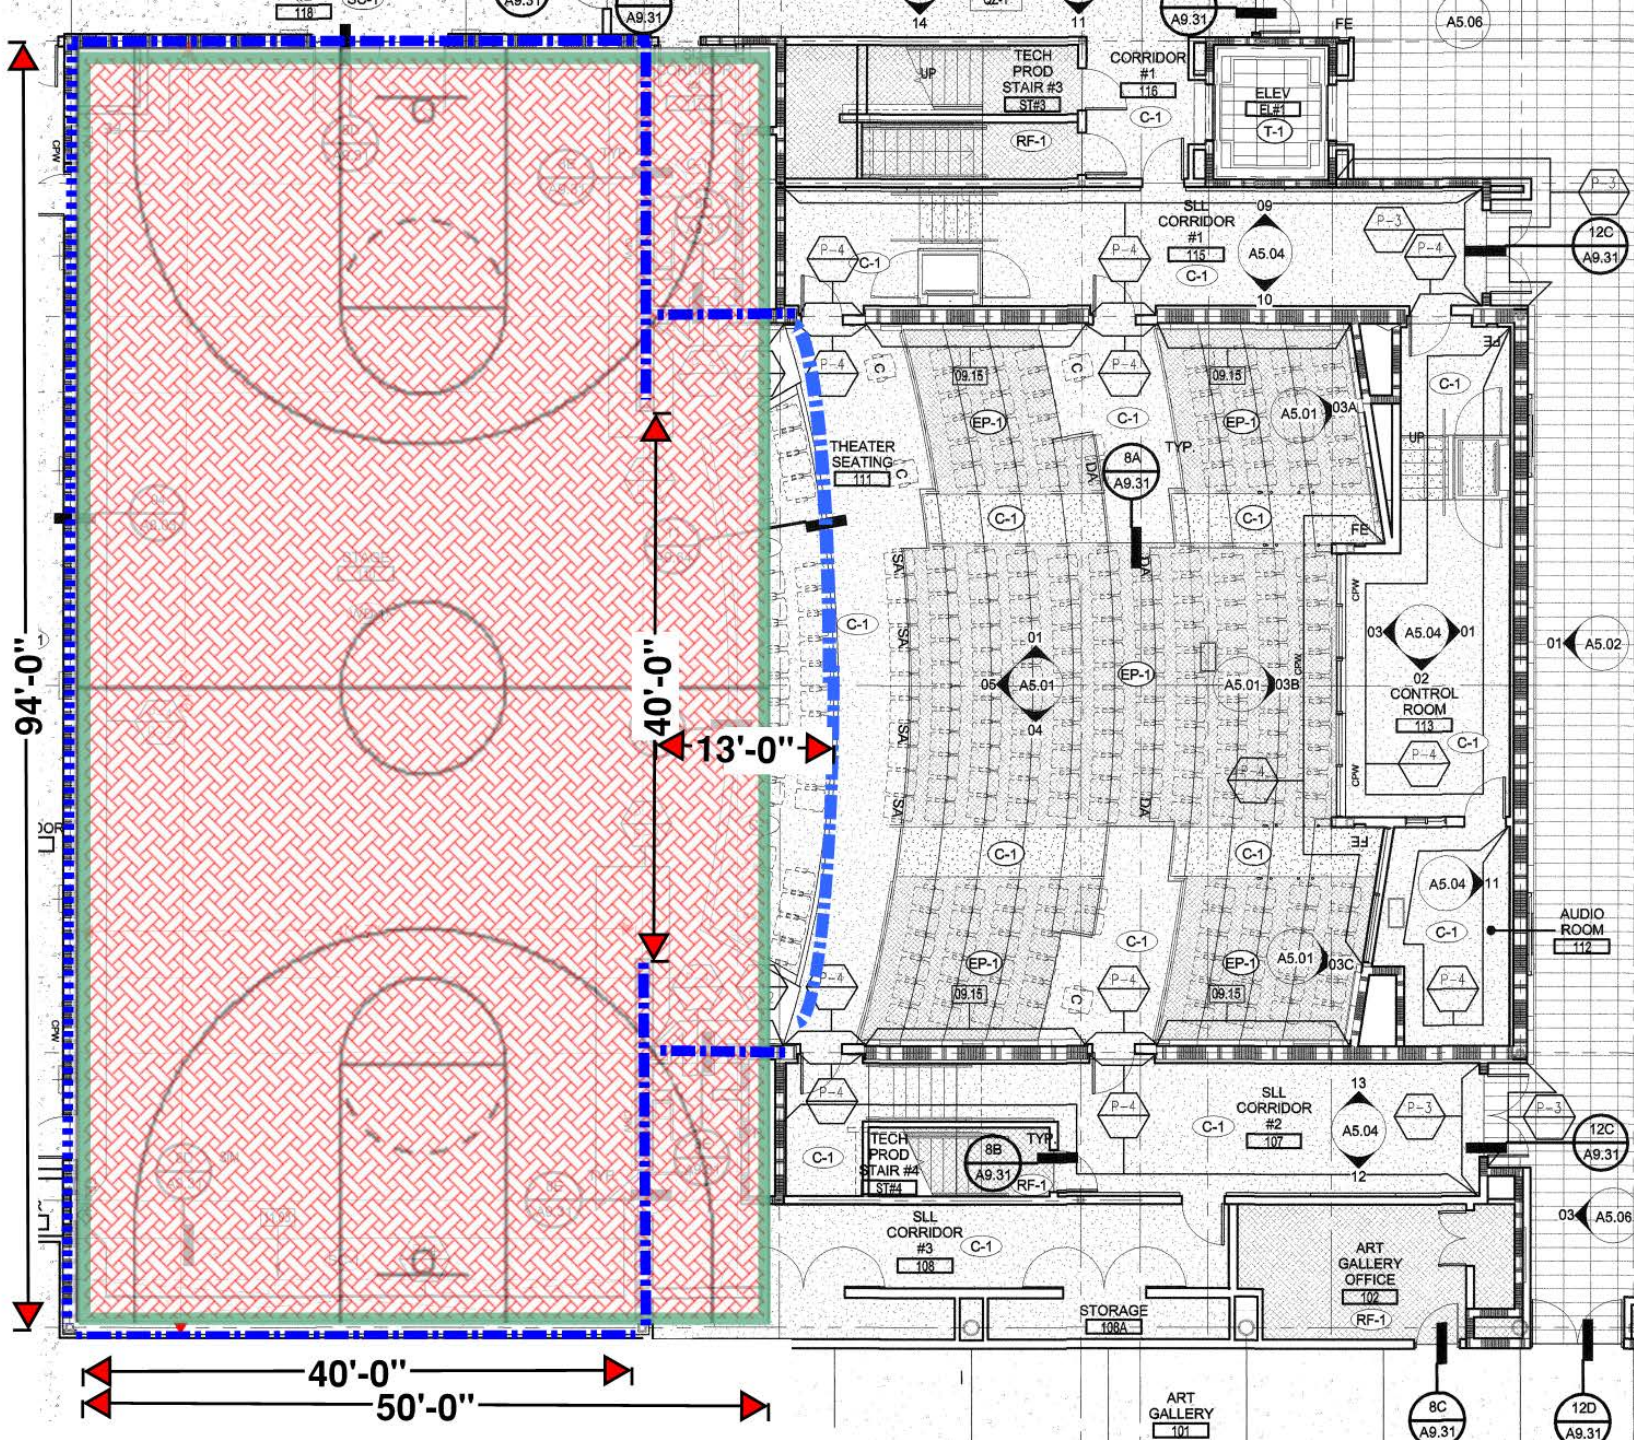

POUCH

An architectural rendering of a long, single-story building with a flat roof and a series of windows. The building is shown in a perspective view, with a courtyard in front. The courtyard features a paved walkway, a grassy area with some plants, and several yellow umbrellas. A person is riding a bicycle on the left side of the courtyard. The building has a modern, clean design with a mix of materials, including brick and wood paneling. The text "Projected Completion Fall 2019" is overlaid on the top part of the image.

(FPR) Facilities Project Request - FLOWCHART

FPR Attachments

SECTION 2 - If the Facilities Project Request (FPR) has received approval to move forward, please respond to the following questions. Attach drawings or backup documentation if appropriate. Only SECTION 2 goes to the Facilities Committee.

Requestor/Primary Contact: _____ Phone Extension: _____
 Department/Program: _____ Date: _____
 Brief Project Name: _____ Project Number: _____
(Brief phrase identifying need such as "Foreign language lab space expansion")

1. Project Description *(please be specific, thorough, and attach a drawing or sketch of the proposed project if possible):*

2. Describe how the project relates to each item:
 - Audiovisual, computers, data, software or phones: _____
 - Building/structure modification or new construction: _____
 - Electrical, mechanical, plumbing: _____
 - Extensive labor/time for Facilities/Maintenance staff: _____
 - Landscape/outdoor project: _____
 - New furniture (not for individual offices): _____
 - Reconfiguration of furniture: _____
 - Reconfiguration of the layout of shared space: _____
 - Other (i.e., health/safety – please explain): _____
3. Describe how this project will directly or indirectly benefit students, and how many students will be affected. What is the impact on students if the project is NOT implemented?
