San Diego County Year-Over Job Gains and Losses Jan. 2014-Jan. 2015

San Diego County continued to experience job gains in a majority of industries from January 2014 to January 2015. While most sectors posted month-over job losses, year-over job growth across all industries indicates overall strength in the region's market.

Mark Cafferty, Co-Chair, San Diego Regional Economic Development Corp.

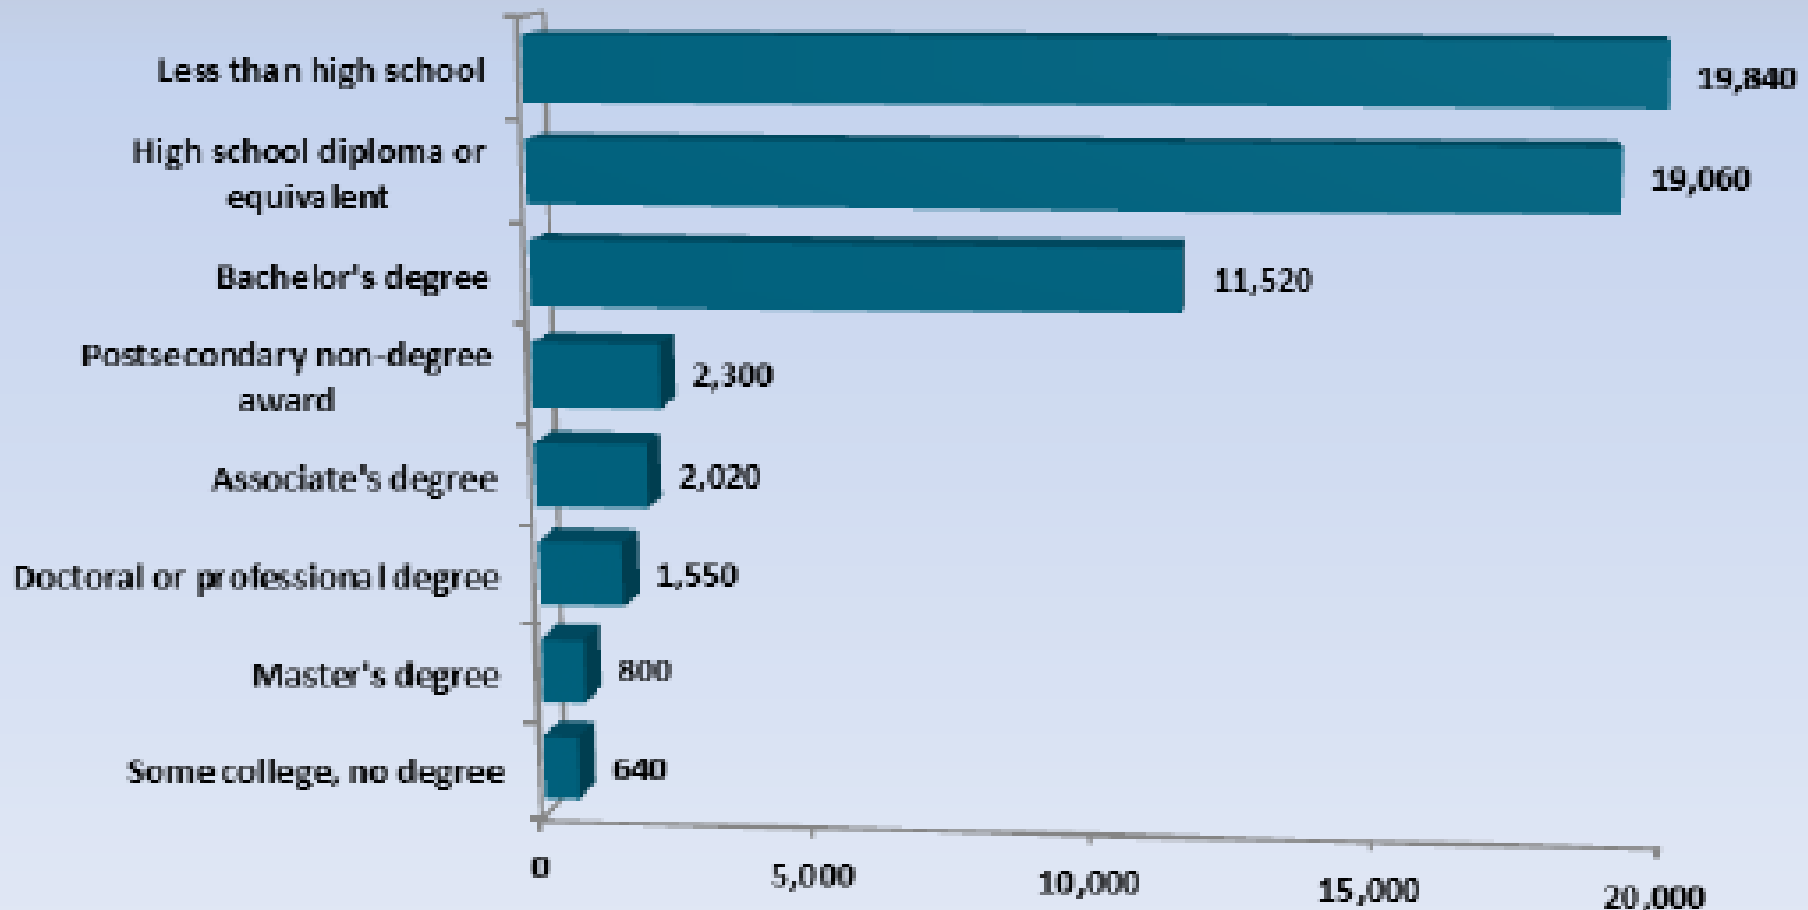

- "To think that the pathway is just one direction and not realizing you'll be coming in and out more or less on a career journey these days is something we've got to get more workers and young people realizing is the new norm."
