ENROLLMENT STRATEGIES COMMITTEE AGENDA

October 1, 2012

3:30pm-5pm in Griffin Gate

- 1. Welcome and introduction of new members
- 2. Additional agenda items
- 3. Scheduling models Tim
- 4. Charge and composition
- 5. 2012-13 schedule planning
 - a. Current FTEF allocation
- 6. Plan for worst case (if Prop 30 fails)
 - a. Current reductions identified by deans
- 7. Plan for best case (if Prop 30 passes)
 - a. Total FTEF to add
 - i. Add to spring and/or summer session
 - ii. Rules for Summer 2013 FTES to be counted in 2012-13
 - 1. Census date must occur prior to 6/30/12
 - 2. Class must end on or before 6/30/12
 - iii. How to add across the board or strategically
- 8. History of strategic additions in Fall 2011 by Enrollment Strategies Committee
 - a. Criteria and June 2011 process
 - b. Worksheet
 - c. Classes added for Fall 2011
- 9. Data to consider for strategic additions Shirley
 - a. Fall 2011 -2012 differences
 - b. Most common degree and certificates
 - c. Classes that closed first fall 2012
 - d. How to identify bottlenecks to access, completion and basic skills
 - e. Assessment data not readily available
- 10. Plan for Spring 2013 if Prop 30 passes
- 11. Next meeting

Definition of Terms from the Grossmont College Academic Program Review Handbook

FULL TIME EQUIVALENT STUDENT (FTES) — (Formerly known as ADA.) This unit is used as the basis for computation of state support for California Community Colleges. One student attending 15 hours a week for 35 weeks (1 academic year) generates 1 FTES.

1 FTES = 15 (student contact hrs/week) X 35 (weeks) = 525 (weekly student contact hrs/yr)

To approximate FTES generated by a 17.5-week semester class, use the following formula:

WSCH (from census)/ $525 \times 17.5 = FTES$

For example, a class of 40 students meeting 3 hours per week generates 120 WSCH:

40 students x 3 contact = 120 WSCH

To figure the FTES for the class, insert the WSCH in the formula provided above:

120 / 525 x 17.5 = 4.00 FTES

For more detailed formulas, including the Census Week Formula, Census Daily Formula, Actual Hours of Attendance Formula and the Independent Study/Work Experience/TV Formula, contact the Director of Admissions.

LOAD EQUIVALENCY DECIMAL (LED) – LED is a way of calculating faculty load by converting hours to a percent.

FULL TIME EQUIVALENT FACULTY (FTEF) (also known as LED) — Courses with the sum of 1.0 LED in any given semester.

FTES PER FTEF – The ratio of full-time equivalent students to full-time equivalent instructors.

Issues with planning for Fall 2012

- 1. We will not know the result of the tax ballot measure until mid-November. Passage allows for best case scenario (5.93% reduction), defeat is worst case scenario (11.06% reduction).
- 2. Students register for Spring 2013 starting in late November. Spring 2013 semester schedule is finalized in September/October.
- 3. FTES target for the district has changed since the beginning of the year, and may continue to be adjusted over the next year.
- 4. Not all divisions can make an 11% reduction
 - Allied Health and Nursing cannot reduce to the worst case due to the program requirements for accreditation of health profession programs.

Enrollment Strategies Update June 2011

The Enrollment Strategies Committee

The Enrollment Strategies Committee (ESC) is chaired by the Vice President of Academic Affairs and is composed of faculty representatives from each of the instructional divisions and counseling, the instructional division deans, the Dean of Counseling and Enrollment Services, and the Instructional Operations Supervisor.

The charge of the committee is to recommend to the college leadership specific adjustments to the scheduling of future course offerings, as well as specific emphases in reaching out to prospective student populations, in response to short and long range community needs, and within the context of internal fiscal and other governance directions.

Summer work

At the end of Spring semester 2011, the ESC met and learned that a slightly improving budget picture would allow for the addition of up to 4% LED to the Fall 2011 class schedule. After much discussion the committee recommended a 2% addition across-the-board reallocation per division. They also recommended that the remaining LED (~2.7%) be used to strategically address overarching student needs, which would be identified and selected based on available data and criteria that would be established by the committee. To that end, the committee decided to continue to meet on a weekly basis over the month of June in order to develop the criteria and identify those courses that would be of greatest benefit to students. The ESC will be evaluating the process, including the recommendation of a split return of the LED to the schedule, when they reconvene in the fall and recommending any changes or improvements to the process prior to considering any further strategic additions to the Spring 2012 schedule.

The Process

The ESC first met to identify the data that would be most useful in developing criteria and identifying the areas of greatest student need in terms of coursework. They then examined data, along with examples of criteria from other colleges, before developing the following set of criteria that can be used not only to guide addition of courses back into the schedule but can also be used to guide discussion on what to preserve in times of section reductions.

The Criteria

General Education and Transfer	Career and Technical / Workforce Development (CTE/WD)	Basic Skills
Critical GE areas such as the Golden Four (written communication, oral communication, critical thinking, and quantitative reasoning)	Required courses in CTE/WD certificates/majors that are offered on an approved rotation plan or that are critical for students to complete a certificate/major	 English/ESL pathway culminating in college level writing skills Math pathway culminating in college-level math skills
 Critical GE classes for program preparation/prerequisites Top 10 transfer majors/degrees/certificates 	 Courses required for professional development or industry certification leading to career entry or advancement Courses mandated by regulatory agencies 	

The Data

The committee then examined the following data:

- 1. Average number of students per section left on waitlists (Fall 2008 vs Fall 2010)
- 2. Number of sections with waitlists (Fall 2008 vs Fall 2010)
- 3. Grossmont College General Education courses required for:
 - a. Top 10 Grossmont degrees awarded
 - b. Top 5 Grossmont certificates awarded
 - c. Top 12 majors pursued at San Diego State University (the primary transfer school for Grossmont)
 - d. Prerequisites or corequisites for other courses
 - e. The number of Grossmont majors that use the course as a core requirement
 - f. IGETC or CSU certification
- 4. Non-General Education courses required for the Top 12 majors
- 5. The order in which course sections filled Fall 2010
- 6. Top 10 courses taken in the final year before transferring to UC San Diego and National University
- 7. Courses seen as roadblocks to beginning, moving through, and exiting programs (identified by discipline chairs and coordinators)
- 8. Aggregate (Combined) Retention and Success data for Career Technical Education/Workforce Development, Transfer-level, and Developmental-Level Courses
- 9 Basic Skills Section Counts for Fall 2008-2011

The Recommended Courses for Fall 2011

Based on a review of the data and the criteria listed above, the ESC identified a number of courses as areas where increasing the number of sections will help improve student success at Grossmont College. Based on a department's capacity and the availability of facilities, the following courses were recommended as additions to the Fall 2011 schedule. The table includes the course, the strategic criteria that apply, and the data supporting the choice of that course.

Course	# of Sections	Strategic Enrollment Criteria Met	Data Supporting Selection of that Course (see data sources below for meaning of numbers)
Bio 120	2	GE/Transfer	1, 3a, 3c, 3e, 3d, 3f, 5, 7
Comm 120	4	GE/Transfer	1, 3e, 5
Eng 98	2	Basic Skills	1, 2, 3d, 9
Engl 110	4	GE Grossmont	1, 3d, 5, 6, 7
Engl 120	4	GE/Transfer	1, 3a, 3c, 3d, 3e, 3f, 5, 6, 7
Math 160	2	GE/Transfer	1, 3c, 3e, 3f, 6
Math 90	2	Basic Skills	1, 3d, 5, 7, 9
Psy 120	3	GE/Transfer	1, 3d, 3e, 3f, 5, 6, 7
Soc 120	2	GE/Transfer	1, 3a, 3c, 5, 6, 7
Bio 144	1	CTE/WD - GE/Transfer	1, 5, 7
Art 100	1	GE/Transfer	1, 2
Bus 110	1	GE/Transfer	3e
Chem 141	1	GE/Transfer	3d, 3e, 3f, 5, 7
Comm 122	3	GE/Transfer	1, 3c, 3d, 3e, 3f, 5
Hist 108	1	GE/Transfer	1
Math 110	1	GE Grossmont	1
Span 120	1	GE/Transfer	1, 3d, 6

Lessons Learned:

- This is the first time through a process in which the LED to be added back into a schedule was split into two parts (~ 50% went back to the divisions across the board and ~50% was recommended after analysis of information by the ESC). As stated above, the ESC will be evaluating the process when they reconvene in the fall and recommending any changes or improvements to the process prior to considering any further strategic additions to the Spring 2012 schedule.
- This process may lead to a different approach to scheduling, one in which each department
 and division may focus more strategically on those courses that are important for students
 moving through their programs, while the ESC may focus more strategically on those courses
 that meet the overarching student needs.
- The ESC recognized that data and other information, as well as the criteria used in this process may need to be updated as each semester progresses. The end result of this first iteration was the recommendation of courses that fell primarily within the areas of GE/Transfer and basic skills. For future meetings, there will be a need for other data that are considered as circumstances change (i.e. with changing community needs, discipline or degree changes, or changing student needs).
- There is a need for continued discussion on whether to consider student needs in terms of the three-part mission of the community colleges (GE/transfer, CTE/WD, and basic skills), as well as in terms of entry, transition, and exit needs. Data provided will need to support each of these areas in order to better inform the discussion.
- Continue having the research liaison to identify, explain, and assist in the analysis of the data.
- Attempt to manage our Enrollment Strategies meeting schedule in such a way that allows for maximum input from the campus community.
- The ESC will consider courses added in by departments/programs in addition to considering data for more global recommendations.

Data Analysis Worksheet Enrollment Strategies Committee

Carefully examine all of the provided data and, based on that analysis, list your top 10 recommended classes in the table below.

What criteria does this course meet? (please refer to the provided list of criteria)	What data support your choice of this course? (please list the data numbers on the provided index list that you used to determine the class that you listed on the left)	Miscellaneous Notes	
,
