WORKSHOPS

Insights into Human Behavior AND Implications on our Interactions with Students, Co-Workers, Employees, and Supervisors: Fundamental to the daily work on this campus are interactions with students, co-workers, employees, and supervisors.

Presenter: Micah Jendian

Room: Griffin Gate

WORKSHOPS

Has California Found Its Level? It's easy to think of drought as a brief interruption in California's fantastic climate and lifestyle – like wildfires and earthquakes. This presentation will discuss why it's smarter to think of drought as a long-term problem, and how you can contribute to long-term solutions.

Presenter: Mike Uhrhammer is the Senior Public Affairs Representative at Helix Water District. He jumped into water in 2001 as the Communications Manager and then Communications Director at Padre Dam Municipal Water District, co-chaired San Diego County's first Water Conservation Summit in 2006, authored the San Diego County Water Authority's eGuide to a WaterSmart Lifestyle, and teaches water resources management in the Water and Wastewater Technology Program at Cuyamaca College.

Room: 51-575

WORKSHOPS

Outlook: Tips and Tricks for Daily Use: Join BOT instructor Sosha Thomas and BOT Lab Assistant Janice Fischer for this informative and hands-on workshop to help you find the tips and trick in Outlook to make your day easier.

Presenters: Sosha Thomas, BOT Faculty and Janice Fischer, BOT Lab Assistant

Room: 70-126
