COMMENDATIONS

Outstanding work with promoting student success

Well maintained, safe and well equipped campus facilities that promote a positive teaching and learning environment

Open transparent and inclusive culture which has fostered an environment for institutional excellence

Implementing strategies that promote an environment of open communication, transparency, and trust

Developing a culture focused on improvement through the dissemination and reliance on data

DEFICIENCY

District and College include, as a required component of the formal evaluations of faculty and others directly responsible for student progress toward achieving stated SLOs, a means to evaluate effectiveness in producing those outcomes

RECOMMENDATIONS

Identify future benchmarks or targets based upon data analysis so that the degree to which they are achieved can be determined and discussed

Maintain consistency in providing information on all major policies affecting students in catalog, schedule and website

Assess and analyze the level and stability of its future workforce requirements

District & GB regularly evaluate its policies and practices and revise as necessary

Clearly, consistently and broadly communicate the delineation of the operational responsibilities and functions of District and college

Next Steps - Accreditation

- Draft report will go through collegial consultation starting August
- Governing Board presentation on the reports in August board meeting
- Finalization and approval of the report in September
- Mini-visit in late October 2014

What The Deuce???

What's a QR
Code?

- A QR Code, or Quick Response Code, is a matrix barcode that turns a one-dimensional piece of paper into a multimedia presentation when scanned with a smart phone. It can take you to a movie trailer, a product's website, a recording artist's video, or an employee satisfaction survey!
