What's Hap?

Our Peer Mentors were part of the What's Hap? session on April 20th where they shared their stories in a student panel and provided insight in how faculty can help students in their given roles.

Rafael Baez

One of our peer Mentors, **Rafael Baez**, is the student representative on the Student Success and Equity task force in charge of improving student success in the 12 identified Gateway courses at Crossmont College.

Student Social

On April 4th the Peer Mentors held a social event in the main quad open to all students to participate in fun, hands-on activities. Throughout the social students developed communication & team-building skills all while they met & collaborated with new people!
